

GREATER CoPENHAGEN REGION

GREEN TRANSITION IN THE GREATER COPENHAGEN REGION

Greater Copenhagen Region is world leading in green transition – both in spirit and in practice. Companies in the region focus on areas like green transportation, upcycling/recycling, eco-buildings and renewable energy. The region is home to some of the world's most advanced research facilities, making it a unique location to help shaping the future of green-tech and sustainable living.

Doing business in Greater Copenhagen Region allows for a sustainable lifestyle and conduct of business. Both Denmark and Sweden are well-functioning welfare states and therefore, investing in the region is a smart long-term choice.
